M S ARUN SANJEEV

Tamil Nadu - India

9492633000 • msarunsanjeev@gmail.com • www.linkedin.com/in/arunsanjeev • www.github.com/arunsanjeeevms

SUMMARY OF QUALIFICATIONS

- Full Stack Developer with experience building production-grade systems used by 700+ users.
- Strong in backend architecture, database design, and developing scalable systems.
- Hands-on experience with cloud deployment and applying security practices in real-world projects.

EDUCATION

M Kumarasamy College of Engineering — Karur, India
Bachelor of Engineering, Computer Science — 2023-2027
Software Development, DevOps — **CGPA: 8.5/10 (Till 5th Semester)**
Government Higher Secondary School — Namakkal, India
Higher Secondary Education — 2023 - **Percentage: 91.3%**

SKILLS SUMMARY

Programming Languages: Java, C, JavaScript, PHP, SQL
Web Development: HTML5, CSS3, ReactJS, Laravel, RESTful APIs
Databases: MySQL, MongoDB
Cloud & Deployment: Web application deployment, server configuration
Tools & Environment: Linux, Git, VS Code

PROJECTS

Credixa – Finance Management System | PHP, MySQL

- Developed a modular finance management system handling ledger operations, loan processing, balance tracking, and reporting
- Implemented secure authentication, middleware-based access control, and role-based authorization
- Designed database schema for financial entities including CIF, transactions, and audit logs
- Built KYC handling, approval workflows, and security logging for sensitive operations
- Structured backend into modular components with REST-like APIs for maintainability and scalability.

Hostel Management System | PHP, MySQL (Live – 700+ Users)

- Developed and deployed a full-scale hostel management system used by 700+ students in a live college environment
- Implemented modules for leave management, attendance tracking via biometric integration, and mess token generation
- Integrated IVR-based communication system for automated notifications and alerts
- Designed admin dashboard for real-time monitoring and operational control
- Ensured data consistency, concurrency handling, and reliable performance under active usage

RELEVANT EXPERIENCE

Full Stack Developer Internship — **India**
New Tech Solutions, Salem — **July 2025**

- Developed and maintained full stack web applications using PHP (Laravel), JavaScript, and MySQL
- Designed and implemented RESTful APIs for seamless frontend-backend integration
- Deployed applications on live servers and managed basic server configuration
- Worked in Agile environment with sprint planning and iterative

AI Internship **India**
Nuvai Solutions Pvt Ltd, Banglore **October 2025**

- Explored Retrieval-Augmented Generation (RAG) concepts for building AI-driven applications
- Worked on text chunking strategies and embedding generation for efficient information retrieval
- Gained hands-on exposure to vector databases for storing and querying embeddings
- Assisted in integrating AI-based features into application workflows
- Learned practical approaches for handling unstructured data in AI systems

CERTIFICATIONS

- Top 5% – NPTEL Introduction to Industry 4.0 & Industrial IoT, IIT Kharagpur (2025)
- Google Cybersecurity Professional Certificate – Coursera (2024)
- Cisco Junior Cybersecurity Analyst Path (2024)
- Postman API Fundamentals Student Expert (2024)
- GitHub Foundations Certification (2024)

ACHIEVEMENTS

- **3× National Hackathon Winner**
  - Winner – *AI Ascend 2026* (conducted by AWS & Kyndryl)
  - Winner – *Prathiyogitha Volume 2 (24-Hour Hackathon)*, Kongu Engineering College
  - Runner-up – *MKCE HackFest 2026*
- **Intra - Hackathon & Competition Highlights**
  - Winner – *GenCraft 2026 Hackathon*
  - Winner – *GenCraft 2026 Appathon*
  - Second Runner-up – *GenCraft 2025 Code Wars*
- **Cybersecurity Achievements**
  - **2× CTF Winner** –Systech Groups Academy Pvt. Ltd.
- **Creative & Technical Competitions**
  - Winner – *Orlia 2026 Memes Mania*
  - Runner-up – *Poster Designing Contest*, MKCE

POSITIONS OF RESPONSIBILITY

- **President** – Unstop Igniters Club
  Led club initiatives, organized hackathons, coding contests, and student engagement programs
- **Vice Chair** – IEEE Society
  Coordinated technical events, workshops, and collaborations
- **Microsoft Learn Student Ambassador**
  Conducted sessions on AI, GitHub Copilot, and developer tools
- **Campus Ambassador** – Unstop & GeeksforGeeks
  Promoted platforms, increased student participation, and managed outreach campaigns
